New to Girls' Schools? Register for the ICGS Intro to Girls' Schools Course

Registration is now open for this innovative professional development opportunity developed specifically for those working at girls' schools. The three-week online course is led by seasoned and accomplished girls' school educators.

Participants will explore research on girls' education and hear directly from experts in the field on how girls learn best and the characteristics that make girls' schools uniquely transformational environments. They will then apply this new knowledge to classroom and school setting scenarios and receive feedback on their thoughts from expert mentors. By the end of the experience, educators will gain a clear sense of what it means to work in a girls' school; understand research related to girls' education and demonstrate they can apply it to their own practice; and connect to a worldwide community of educators.

Session I: June 10-23, 2024
Session II: July 15-August 2, 2024
Session III: January 13-February 1, 2025
